Professional Summary

Information Technology undergraduate at CHARUSAT with hands-on experience in C++, Python, full-stack web development, databases, REST APIs, and AI-powered applications. Developed FoodLens, a full-stack food intelligence platform integrating barcode-based product identification, OCR, external APIs, personalized analysis, and AI-generated explanations. Strong foundation in DSA, DBMS, OOP, and problem solving.

Education

B.Tech in Information Technology — CHARUSAT, Gujarat **2024 – 2028 (Expected)**
CGPA: 7.78

Higher Secondary Certificate (Class XII) — Gujarat State Board **2024**
Percentage: 86.15%

Secondary School Certificate (Class X) — Gujarat State Board **2022**
Percentage: 89.15%

Technical Skills

- **Languages**: C, C++, Python, JavaScript
- **Backend**: FastAPI, REST APIs
- **Frontend**: React, HTML, CSS
- **Databases**: MySQL / PostgreSQL / SQLite
- **AI / Computer Vision**: OCR, Tesseract, OpenCV, LLM APIs
- **APIs**: Open Food Facts API
- **Concepts**: Data Structures & Algorithms, OOP, DBMS, REST APIs
- **Tools**: Git, GitHub, VS Code

Projects

FoodLens — AI-Powered Food Intelligence Platform

- Developed a full-stack web application that analyzes packaged food using barcode scanning, Open Food Facts API, and OCR-based label extraction.
- Built a FastAPI backend with user authentication, profile management, dietary preferences, product analysis, and database integration.
- Implemented nutrition, ingredient, additive, allergen, and personalized food-score analysis to help users make informed food choices.
- Integrated AI-powered explanations and recommendations while keeping numerical food scoring based on a deterministic scoring algorithm.
- Designed features for product comparison, healthier alternatives, scan history, shopping-basket analysis, and nutrition dashboards.

SQL Query Developer

- Developed complex SQL queries for efficient data retrieval and relational database management.
- Worked with normalized database structures and applied query optimization techniques to improve performance.
- Gained hands-on experience with schema design, joins, aggregations, and subqueries.

Achievements

- Solved 180+ coding problems across LeetCode (160+), GeeksforGeeks, and HackerRank.

Certifications

- **Data Structure and Algorithms using Java** — NPTEL Online Certification, IIT Kharagpur (Roll No: NPTEL25CS148S951400112)
- **Foundations of Data Structures and Algorithm Analysis** — Coursera
